Special solution for your customer!

Wellness is Our business

The LAPEX-2000 BCS utilizes cold red light for deep tissue warming to enhance micro circulation for the fat reduction.

Both male and female clients have found that those hard to reduce trouble spots, such as love handles, tummy bulge, and saddlebags, are decreased after only a few treatments. The treatments are painless and more importantly, non-invasive.

The LAPEX-2000 BCS by Meridian Medical Video Interviews on the BCS click on any of the titles below to view a video...

Note: viewing these videos requires the latest Free Flash Player update if your system does not have one installed, it will be done for you.
